

The **Ottawa Institute of Systems Biology** proudly presents its inaugural symposium entitled:

"Progress in Systems Biology"

November 17-18, 2005
NRC-IBS Auditorium, 100 Sussex Drive
Ottawa, Canada

Keynote Speakers:

Ruedi Aebersold

Professor, Institute for Biotechnology, ETH Zurich, Switzerland
Institute for Systems Biology, Seattle, USA

Michael Snyder

Molecular Biophysics and Biochemistry at Yale University
Director, Yale Center of Genomics and Proteomics, Yale University

Tony Pawson

Director of Research, Samuel Lunenfeld Research Institute of Mt. Sinai Hospital, University of Toronto
Distinguished Scientist, Canadian Institutes of Health Research

Brenda Andrews

Banting & Best Department of Medical Research, Faculty of Medicine, University of Toronto

Marc Vidal

Director, Center for Cancer Systems Biology, Department of Cancer Biology, Dana-Farber Cancer Institute
Associate Professor of Genetics, Harvard Medical School

Anne Dell

Division of Molecular Biosciences, Imperial College, London
